

UK GTEM USER GROUP  
24<sup>th</sup> JUNE 2003  
MTL – LUTON 10.30 for 11am

Agenda

Refreshments and Lunch will be available at regular intervals !

GTEM User Group Meeting

We are fortunate to have Mr David Imeson secretary of the EMCTLA coming to give a presentation on the 'New' EMC Directive, and answer members questions.

Other agenda items will include:-

- 1) Feedback from Phil Carter's Q & A session.
- 2) Exchange of information/News from Industry.
- 3) NPL and future work re;GTEM's?
- 4) GTEM Best Practice Guide for users.
- 5) The future of the User Group - the main objectives of the group have largely been met with the publishing of EN61000-4-20 and the Best Practice Guide. Time to review our purpose.
- 6) GTEM UG Web site future purpose?
- 7) General Q & A for the GTEM users.
  - a) How should GTEM users deal with cell resonances when Radiated Immunity testing.
  - b) Suitable low cost materials for the construction of jigs for mounting EUT & cables in a GTEM.

We look forward to seeing you if you are able to come - but let us know in good time so that arrangements can be made.

Best Regards

Ian Alderman
