

UK GTEM USERS GROUP

**AGENDA OF MEETING TO BE HELD AT
NPL, BUSHEY HOUSE, TEDDINGTON.
AT 10.30 FOR 11AM
ON TUESDAY 21ST SEPTEMBER 2004**

Items include (but not necessarily in this order):

- **Testing IC's above the Septum by Martin Wiles**
- **Reviewing the new Committee drafts of ;
IEC 61000-4-3 (3rd Edition)
and CISPR 16-2-3 (1st Amendment)
[Lots of stuff about cables]**
- **Our Website development – what is involved in
having an on-line tutorial?**
- **IEEE EMC Society Standards Development
Committee takes us under its wing
Comments required on draft changes to
ANSI C63.4 (above 1GHz)**
- **Wireless Compliance Testing - what do we see as
the path to acceptance?**
- **Exchange of information - including three recent
Field Probes**

**This is your group – come and tell us what you think.
We now have several routes of influence [see also
page 3 of the minutes 25th May]**

See you there?!
